Understanding Adjectives: A Foundation for Class 4

Before jumping into worksheets, it's crucial to ensure a solid understanding of what adjectives are. For Class 4 students, explaining adjectives as "describing words" is usually a good starting point. These words add detail and color to sentences, telling us more about nouns (people, places, things, and ideas).

Types of Adjectives:

Descriptive Adjectives: These describe qualities like size (big, small), color (red, blue), shape (round, square), and texture (rough, smooth). Examples: a big red ball, a smooth, round stone.

Qualitative Adjectives: These express opinions or judgments. Examples: a beautiful flower, a delicious cake.

Quantitative Adjectives: These describe quantity or amount. Examples: two apples, many cars.

Possessive Adjectives: These show ownership. Examples: my book, her toy, their house.
